CONCRETE HOSE
Reducing Boom Hose

Application:
The hose engineered with a cone shape for enhanced control of flow, and easier concrete filling of forms and blocks.

Tube:
High abrasion resistant conductive black NBR rubber.

Reinforcement:
High strength brass coated spiral steel wires.

Cover:
Weather, ozone resistance, abrasion resistant, black SBR/EPDM rubber.

Working Pressure:
1233 PSI, 85 bar

Nominal Burst Pressure:
2466 PSI, 170 bar

Temperature:
-40°F/+158°F (-40°C /+70°C)

Marking:
PARAGON

Steel reinforced reducing boom hose from 5" to 4" and 5" to 3"

PART NO.	Size		End type	Weight	
	Inch	mm	Inch	Lbs.	Kg
CCSH-500400-M-10'	5 to 4		Metric Full Flow End	97	44
